

Aquanor & Aquaculture Europe '05

Aqua Nor is the most important event and the principal venue for everyone related to the fish farming industry. Here you will find the very latest in terms of news, products, services, research and development. All major aquaculture nations are represented by exhibitors, delegations and visitors.

Aquaculture Europe 2005 is an important attraction in connection with Aqua Nor 2005 for academics, farmers, suppliers, buyers, distributors, managers, regulators and policy/decision-makers. The unique opportunities for contact dialogue and information transfer between researchers and the production sector are the main reasons for the organisation of Aquaculture Europe 2005 alongside Aqua Nor 2005.

For more information about the study tour and Aquanor 2005, please visit the Aqua Innovation Network website at:

A Study Tour to Norway

Aqua Innovation Network, 7-12 August 2005

Including Aquanor 2005

www.aquainnovation.net

The Event

The Aquaculture Innovation Network is hosting a study tour to Norway that will be of particular interest to fish farmers and companies seeking to start or improve their processing operations and address new markets.

Participating in this event will provide outstanding opportunities to see new technologies,

meet suppliers and existing users and find out what might be suitable for your business.

The visit will provide a focus on innovation and how you can take advantage of new technologies and market opportunities to advance your business. There will also be opportunities to explore mechanisms that give support to innovation, including networks and national and European funding prospects. A particular feature of the programme will be an innovation workshop that is to be organised within the Aquaculture Europe 2005 conference.

All Related Sectors Represented

The Aqua Nor trade shows are held biennially in Trondheim (Norway) and recent events have attracted around 20,000 visitors from close to 50 nations. 300 exhibitors representing more than 600 manufacturers and suppliers from all over the world present current developments in the fields of aquaculture technology, fish feed, fish health, quality assurance, research, training, funding, insurance, fish farmers network, grading, processing, packaging and distribution.

Unique Professional Interaction

Exhibitors emphasize the unique opportunities that Aqua Nor provides for interaction with decision-makers and buyers representing both the national and international aquaculture industries.

Application Form

Please complete and return the following application form if you would like to register interest and find out more.

Areas of Interest

- Processing, packing & distribution
- Marketing
- Aquaculture production
- Information technologies in aquaculture
- Support for learning and skill development
- Improved international networking
- Business & strategic development
